OUR MISSION

We work to facilitate networks and partnership to enable opportunities for women to be informed about all aspects of sustainable fisheries in Fiji

“Women have contributed substantially to fisheries development and management in coastal communities, but there has been little consistent data collected on women participation and how their engagement has empowered and changed their social status. Women continue to be disadvantaged by institutional barriers that they face in decision making and other areas of public life in communities.”

Aliti Vunisea

Values

The values below underpin our organisation

and our work:

Empowerment

Inclusivity

Trustworthy

Non-political

Environmental

Integrity

Accountable

Strategic Priorities

Improve livelihoods and food security opportunities for women in fisheries

WiFN-Fiji recognised as a research hub, clearing-house of information, and repository for issues related to women in fisheries

Advocate for improved policy and policy implementation for greater gender equality in all aspects of fisheries

Build a strong network and responsive organisational base that utilises the diverse knowledge, skills and experiences of its members
